

## Continuing Education Job Training Scholarship

This scholarship provides up to \$1,000 toward tuition and lab fees for noncredit Continuing Education classes leading to entry-level work in Maryland's Critical labor shortage areas. Scholarships will be awarded on a first-come, first-served basis until depleted.

### **Eligibility Requirements:**

1. Scholarships are only available for approved courses.
2. Students must show financial need as determined by the application form.
3. Scholarship awards will never exceed the total tuition and lab fees for eligible courses or \$1,000 whichever is lower.
4. If you request funds for more than one course, you must pass the first class to get funding for the next class.

### **Application Process:**

**As of December 14, 2010, we have awarded all available funding for the Fall 2010, Spring 2011, and Summer 2011 terms. No applications are being accepted at this time. We will begin accepting applications for Fall 2011 courses in June 2011. When we are ready to start accepting new applications, we will replace this web page with the new application form.**

If you decide to enroll in traditional credit courses, you may be eligible for many other forms of aid. See [www.aacc.edu/aid](http://www.aacc.edu/aid) for more information.

If you would like to review the list of the kinds of courses that have previously been eligible for this scholarship, please review the attached list of eligible Fall 2010 courses.

**Fall 2010**  
**Eligible Courses for the AACC Continuing Education Job Training Scholarship**

| <b>A+ CERTIFICATION</b>   |   | <u>Cost</u> |
|---|---|-------------|
| NTW 512   | A+ Certification PC Tech/Hardware   | \$759       |
