

Training for College Credit

Our Business is Your Success

Imagine training that enhances job performance and provides employees an opportunity to earn college credit!

The Center for Workforce Solutions at Anne Arundel Community College will assist you in selecting or designing credit curriculum to meet the business goals of your organization and the personal goals of your employees. By contracting with CWS for your training, your organization will enjoy a single-point-of-contact and streamlined procedures that facilitate the entire process from enrollment to graduation!

Contract credit courses are offered on your schedule, at your site, or at one of our three convenient locations. The Center for Workforce Solutions can provide single and multiple courses, or work with your organization to create a customized certificate or degree program. Internally, CWS partners with the college's academic departments to assure that higher education standards are met.

This win-win training solution offers an opportunity to develop a well-trained workforce and give your business the competitive edge!

We offer courses and certificate and degree programs in the following areas:

- Accounting
- Architecture and Computer-Aided Design (CAD)
