

Whether or not computer technology is your business' primary product or service, computer savvy employees are vital to almost every function of your operation. We have degree programs, certificates, single-day sessions, hands-on courses, self-paced and instructor-led classes or online training in operating systems, networks, office applications, Web development, graphic design, programming and cybercrime\*.

Our high-quality, cost-effective training makes computer technology work for you. Improve your staff's performance and productivity with instructor-led, interactive and online instruction. Choose from a wide selection of standard and progressive classes, or let us customize curriculum just for your business. Training is available at Arundel Mills, Glen Burnie Town Center and Arnold campus or on-site at your business.

### Technology Training
