

Request for Business Counseling

The Entrepreneurial Studies Institute (ESI) at Anne Arundel Community College is pleased to offer Business Advising services in partnership with SCORE, Counselors to America's Small Businesses. These sessions are designed to provide students with real world business counseling that goes beyond what you are learning in your course work here at the college.

In order for these sessions to be most effective, SCORE needs some background information to assign the most appropriate business advisor and to allow them to prepare for a successful meeting with you. You can expect honest, straight forward advice about your business ideas, concepts, and plans. Do not be surprised if the counselor asks questions that appear to be outside the scope of your initial questions. They will do their best to gather & analyze data about you and your business in an effort to provide you with constructive feedback and practical suggestions.

Complete the following in as much detail as possible. You may attach additional pages and a copy of your business plan, and/or any other supporting material that you think will assist the SCORE counselor in preparing to meet with you.

It is important to note that your relationship with ESI and SCORE is confidential. Your business idea and plan will not be shared with any other parties.
