Minor Patient Authorization Forms Overview

To ensure the safety, legal compliance, and continuity of care for patients under 18, the AACC Dental Hygiene Clinic requires specific authorization forms depending on how a minor attends appointments. These forms clarify parental consent for treatment, permission for minors to be seen without a parent present, and authorization for another adult to transport or accompany a minor. Together, they help protect patients, families, students, and faculty while supporting efficient clinic operations.

1. Parental / Guardian Consent for Treatment (Required for Minors)

What this does: Gives the clinic permission to examine and treat a patient under 18 (including X-rays, cleanings, periodontal care, anesthesia if needed, and emergency first aid). It also confirms the parent/guardian understands this is a teaching clinic and accepts financial responsibility.

2. Unaccompanied Minor Consent

What this does: Allows a minor to receive dental care **without a parent/guardian present** at the appointment, as long as the parent remains reachable by phone and accepts responsibility for care and fees.

3. Authorization for Accompanying Adult / Transport of Minor

What this does: Authorizes a specific non-parent adult to bring, pick up, and/or accompany the minor to appointments (and optionally approve emergency care), while the parent keeps overall responsibility.
