ADMISSIONS APPLICATION 2018-2019

ANNE ARUNDEL
COMMUNITY COLLEGE

INTRODUCING A NEW WAY TO SELECT A MAJOR

AACC has something for everyone, but with so many degrees and certificates available, our list of majors can seem daunting to the first-time student. To help undecided applicants find the major that best fits their interests and goals, we are organizing our degrees and certificates into 11 broad Fields of Interest.

New students will be able to "explore" their options within one of the Fields of Interest. With this new Explore program, students take numerous courses common to a particular field of interest, and a course that provides more in-depth exposure to the various disciplines within that field. Once students have completed these courses, they are prepared to make better, more informed decisions about their major – and their future.

Not everyone applies to college with a firm goal in mind, or even an idea of which path to take. In many ways, that's why we're here. Our academic advisors, career advisors and faculty are committed to helping students determine the route that works best for them. This new approach is one more way that AACC can help students begin their college journey, and redefine themselves for a bright future.
