Placement Prep Introduction.
If you would like to take the ACCUPLACER Placement please choose a placement prep:

Option One
To prepare, sign-up for a face-to-face or online ACCUPLACER Prep session at https://bit.ly/2CkEm3H. These sessions are designed to help you prepare for the ACCUPLACER placement test, learn about additional methods in order to "place" and what to do after your placement test.

Option Two
If you are not able to attend a prep session, please watch the ACCUPLACER prep presentation:
1. Visit https://share.nearpod.com/1mYA9vtp5T (Case Sensitive)
   - If you have issues with this site, please email testing-arnold@aacc.edu.

Visit the Testing Center to complete the ACCUPLACER Test.

Visit with an Academic Advisor prior to registering for classes.
- For Advising hours and locations please contact 410-777-2307 or visit www.aacc.edu/advising

Attend New Student Orientation
- For more information about the required New Student Orientation session, please visit www.aacc.edu/orientation

The Reading & Writing Tests May be taken 2x each if desired
Math Placement
Utilized to place you into credit level math course work. Course placement varies based on a range of scores, and based on students chosen major. Eligibility for credit level math course work is required to register for several science and engineering based courses.

Three Placement Potentials for Math
1. Credit Level Math
2. Credit Course & Co-Requisite Course
3. Non-Credit Math Course

ACCUPLACER QAS Test – 20 Multiple Choice Questions
- Rational Numbers
- Ratio & Proportional Relationships
- Exponents
- Algebraic Expressions
- Linear Equations
- Linear Applications & Graphs
- Probability & Sets
- Descriptive Statistics
- Geometry Concepts (Pre-Algebra & Algebra 1)

ACCUPLACER AAF Test – 20 Multiple Choice Questions
- Linear Applications & Graphs
- Polynomial Equations
- Functions
- Trigonometry
- Quadratics
- Linear Equations
- Radical & Rational Equations
- Geometry Concepts (Algebra 1 & 2)

English as a Second Language ACCUPLACER
Students who do not speak English or whose second language is English may be given the ACCUPLACER LOEP exam. Based on the student's background, ACCUPLACER will automatically determine if the LOEP exam is required. After completing the LOEP exam a student may be required to write an essay as part of the LOEP exam.

We encourage all ESL students to review our **ACCUPLACER Prep Guide** and the required ESL **ACCUPLACER Prep Video(English)** or **ESL ACCUPLACER Prep Video(Español)**. Our prep guide includes sample questions for the ESL ACCUPLACER Test. For more information about Anne Arundel Community College’s ESL program, please visit www.aacc.edu/esl or call 410-777-2901.

In order to help you prepare for the placement test, please join our Off-Site Testing Coordinator Kelly Fay for a 60-minute Prep session. This session is designed to help you prepare for the ACCUPLACER placement test, learn about additional methods in order to "place" and what to do after your placement test. We welcome parents and spouses to join us. However, we will not be able to allow children to attend the session.

Retake Options
Nationally most students are placed into at least 1 non-credit course. It is Anne Arundel Community College’s goal to minimize the need for students to place into non-credit courses. A student may be eligible to retake a portion(s) of the ACCUPLACER exams. Below are Anne Arundel Community College’s placement test retake options.

Math Placement
If a student would like to retake the ACCUPLACER Math Placement, they will be required to complete a review course prior to retaking the exam. The review course is determined by level of placement. Upon completion of the math review course, students may retake the exam once more.

Once the placement test has been completed, an Individual Score Report will list which review course students should complete.

Math Review Courses
SKL- 328 is designed for students seeking to retake the math placement test. Emphasis is on a fast-paced intensive review of algebra. Topics include algebraic fractions, linear and quadratic equations, radicals, roots and more. Prerequisite: Students must first take a college placement test at the testing center. Prior knowledge of Algebra 1 and 2 are required. Note: 100% attendance is required of students seeking to retake the college placement test. For more information, please visit http://www.aacc.edu/search/course/crs_sect.cfm?courseId=27804&termId

ALEKS is a web-based, artificially intelligent assessment and learning system. ALEKS uses adaptive questions to quickly and accurately determine exactly what one knows or doesn’t know in math subjects, and then provides instruction on the topics you are most ready to learn. Students that complete 80% of ALEKS may return to the testing center to retake the math portion of the exam. For more information and pricing, please visit the Math Department’s website at http://ola.aacc.edu/mathcomputerlab/PlacementTest/retesting.htm

Writing, Reading and ESL Placement
If you would like to retake either the Writing or Reading placement exams, you may return to the testing center 24 hours after your initial attempt. After your first attempt you are allowed one additional attempt.

Health and Science Arithmetic Placement
If you would like to retake the Arithmetic placement exam, you may return to the testing center after 24 hours after your initial attempt. After your first attempt you are allowed one additional attempt.

Official ACCUPLACER Study Web App

The College Board has released an official ACCUPLACER Study Web App for any desktop or mobile device. This app allows students to take a sample exam for the ACCUPLACER English, reading and math tests. The app also offers additional information on how to prepare for the test. The ACCUPLACER Study Web App is available for free. We encourage all students to use this app.

Please only complete the following sample test(s) in the ACCUPLACER Study Web App.

Note: Please select the following “Next Generation” ACCUPLACER sample test.

- Reading
- Writing
- Quantitative Reasoning, Algebra, and Statistics (QAS)
- Advanced Algebra and Functions (AAF)

DO NOT USE the Arithmetic sample; this test is not used by AACC.

Sherry Turkle of the Massachusetts Institute of Technology has been writing about human-technology interactions for the past three decades. She has become increasingly wary of the capacity of online spaces to fulfill us in the ways we seem to want them to. According to Turkle, part of the problem with the internet is that it encourages self-invention. “At the screen,” she writes in Alone Together (2011), “you have a chance to write yourself into the person you want to be and to imagine others as you wish them to be, constructing them for your purposes. It’s a seductive but dangerous habit of mind.”

The main purpose of the passage is to
A. evaluate conflicting assessments
B. present a sharp critique
C. propose a necessary remedy
D. provide background details

Which is the best version of the underlined portion of sentence 3 (reproduced below)?

A. (as it is now)
B. have been
C. are
D. was
Quantitative Reasoning, Algebra, and Statistics (QAS)

Which of the following is equivalent to the expression above?

A. 4(2x + 7)
B. 8(x+4)
C. 5x+17
D. 8x+13

Advanced Algebra Functions (AAF)

The surface area of a right rectangular prism can be found by finding the sum of the area of each of the faces of the prism. What is the surface area of a right rectangular prism with length 4 centimeters (cm), width 9 cm, and height 3 cm? (Area of a rectangle is equal to length times width.)

A. 75 cm²
B. 108 cm²
C. 120 cm²
D. 150 cm²

Key
Reading – B
Writing – D
Quantitative Reasoning, Algebra, and Statistics - A
Advanced Algebra Functions - D

ACCUPLACER ESL Sample

Students who have completed less than 7 years of U.S. based English will take the ACCUPLACER ESL Placement Test. Although this exam is meant for non-native English speakers, students do have the chance to place into credited English Courses.

ESL Reading Skills

The ESL Reading Skills test measures your ability to read English. Specifically, it assesses your comprehension of short passages. It contains brief passages of 50 words or less and moderate length passages of 50 to 90 words. Half of this test contains straightforward comprehension items (paraphrase, locating information, vocabulary on a phrase level, and pronoun reference). The other half assesses inference skills (main idea, fact versus opinion, cause/effect logic, identifying irrelevant information, author’s point of view and applying the author’s logic to another situation).

ESL Reading Skills Sample Questions

Read the information below, then choose the best answer.

1. Television has been introduced to almost every country in the world, reaching a large number of viewers on every continent. About 600 million people saw the first person walk on the moon, and a billion people watched the twentieth Olympic Games. Television has in many ways promoted understanding and cooperation among people. It does this by showing educational and cultural programs.

   From this passage, a reader can most reasonably conclude that the author believes that
   A. people spend too much time watching television
   B. not every country needs to have television
   C. television can unify people from around the world
   D. television is as important as schools

2. People have different ways of learning. Some are better at making mental pictures of new ideas. Others are more comfortable with writing lists of things to memorize. Certain people can learn best when listening to music, while others need silence to concentrate.

   Which of the following is the main idea of the passage?
   A. Mental pictures help many to learn.
   B. Some people prefer lists to making mental pictures.
   C. To learn well you need to be comfortable.
   D. Different individuals have different ways of acquiring information.

3. If you hold a piece of copper wire over the flame of a wooden match, heat will be conducted by the copper wire to your fingers, and you will be forced to drop the wire. You will, however, still be able to hold the match because wood is a poor conductor of heat.

   Which of the following is implied in the passage above?
   A. Copper is a good conductor of heat.
   B. Wood and copper conduct heat equally.
   C. Wood is an excellent conductor of heat.
   D. Matches should be made of copper.

4. Many people own different pets. Dogs, cats, birds, and fish are common household pets. Others pets are considered to be exotic animals. These include snakes, lizards, and hedgehogs.

   According to the passage, snakes are
   A. uncommon pets
   B. likely to be found in a household with dogs
   C. found only in zoos
   D. not allowed in people’s homes

5. Cesar Chavez was an influential leader for farmworkers. He fought for their rights and better working conditions. Chavez led many strikes that angered farm owners. Eventually he succeeded in getting increased wages and better living situations for farmworkers.

   The passage indicates that Chavez changed lives by
   A. helping to end the farmworkers’ strikes
   B. fighting for the rights of farm owners
   C. working on the farms every day
   D. improving the conditions for farmworkers

6. When cartoonist Charles M. Schulz was a boy in elementary school, other boys teased him for being small and not very good at sports, and his art teacher told him he had no talent for drawing. He had few friends and was too shy to talk to a red-haired girl he admired. Later in life, Schulz used his childhood experiences in his comic strip Peanuts: the strip’s main character, the sad and lonely Charlie Brown, represents Schulz as a little boy. Peanuts was unique at the time because it contained no adult characters. Readers fell in love with Charlie Brown, and Peanuts eventually became one of the most popular comic strips of all time.

   What is the main idea of the passage?
   A. Peanuts was the world’s most widely read comic strip.
   B. Schulz was a very famous cartoonist.
   C. Schulz turned the pain of his youth into success as an adult.
   D. The comic strip Peanuts featured children as its only characters.
7. Money has been used for thousands of years in nearly every culture as a means of exchange. However, today, the use of cash is becoming less and less common in modern societies all over the world. Every year, a higher percentage of purchases are made online, and even in stores customers are now using credit cards more often than cash. Many people today do all of their banking on the Internet rather than going to the bank in person.

The author of the passage probably assumes that
A. cash will become virtually obsolete in the near future
B. using cash will become popular again
C. paying with credit cards all the time is dangerous
D. societies that do business online will struggle

8. Before giving first aid to an accident victim, you should obtain his or her consent. Asking for consent takes a simple question. Say to the victim, "I know first aid, and I can help until an ambulance arrives. Is that okay?"

According to the passage, it is wrong to
A. use first aid on an accident victim without medical training
B. attempt to help an accident victim without permission
C. help a victim before an ambulance arrives
D. call for an ambulance instead of helping the victim

9. Dr. Ellen Ochoa is an inventor and is also the first female Hispanic astronaut. Her inventions include technology to help robots inspect equipment in space to maintain safety and quality control on spacecraft. Before retiring, she logged more than 1,000 hours in space across several space missions.

According to the passage, Dr. Ochoa is the first
A. Hispanic person to travel into space
B. inventor to travel into space
C. woman to travel into space
D. Hispanic woman to travel into space

10. Dogs and cats make very different types of pets. Before deciding whether to buy or adopt a dog or a cat, prospective owners need to carefully consider their own lifestyles and personalities. Dogs may make more affectionate companions, but they require more care and attention. They must be taken out several times a day and should not be left alone for more than a few hours. Larger dogs require significant exercise to remain fit and healthy. Cats are usually more independent in nature and interact less with their owners. Also, a cat can be left on its own all day, or even for several days, as long as it has food and clean water to drink.

From this passage a reader can conclude that
A. owning a cat requires less work than owning a dog
B. people who are away from home during the day should not own a cat
C. people who like to play with their pets should own a cat
D. owning a cat is more responsibility than owning a dog

AACC Arithmetic Health Sciences/Biology Placement

The *Arithmetic Placement Test* is designed to determine whether a student has sufficient arithmetic skills.

The following problems are similar to those given on the screening test. If you take some time to practice, your score will surely be higher. The answers to the problems appear at the end of this material.

This screening test is timed (1 hour) so your practice should be for accuracy and speed. There are thirty-six problems on the test and a *score of 27 or better* is passing. Only one retake of the test is allowed. **Students who are not successful in the retake must enroll in MAT 005. Calculators will not be permitted.**

### Whole Number Arithmetic:

1. \[ 4875 + 1928 = 6803 \]
2. \[ 8073 - 1584 = 6489 \]
3. \[ 38 \times 27 = 1026 \]
4. \[ 15)3105 \]
5. Write the lowest terms: \[ \frac{30}{45} = \frac{2}{3} \]
6. Circle the largest fraction: \[ \frac{4}{5} \text{ or } \frac{7}{10} \text{ or } \frac{2}{3} \]
7. Add: \[ \frac{1}{2} + \frac{5}{8} = \frac{9}{8} \]
8. Multiply: \[ \frac{1}{8} \times 16 = 2 \]
9. Divide \[ 6 \div \frac{1}{2} = 12 \]
10. Mary used \[ \frac{2}{3} \] of her savings to make a down payment on a new car. If her savings were $2,400, how much did she put down?

11. Write in decimal form: \[ \frac{5}{8} = 0.625 \]
13. Multiply: \[ 360 \times 1.2 = 432 \]
14. Which number is the largest? \[ 0.0054, 0.001, 0.07, 1.0 \]
15. \[ 7.5 \times 10^{-3} \text{ is equal to?} \]
16. \[ 7.62 \times 4.7 = 35.614 \]
17. Divide: \[ 360 \div 1.2 \]
18. Express: \[ 37\% \text{ as a decimal} \]
19. Express: \[ 0.03 \text{ as a percent} \]
20. Express: \[ 13\% \text{ as a fraction} \]
21. If 40% of the thirty patients in a certain clinic have headaches, how many have headaches?

22. What should "r" be in order to have:

\[
\frac{r}{5} = \frac{18}{30} \?
\]

23. If it takes 4 cups of water to fill three glasses, how many cups will be needed to fill nine of the same glasses?

24. In a rural county 350 residents signed up for the armed forces. The breakdown of numbers for each branch is found in the table below. What percent of residents signed up for the Air Force? (Round your answer to two decimal places)

25. A farmer tries to save space by putting cows and sheep together in a ratio 3:4 respectively. If the farmer gets 15 cows, how many sheep must have to keep the same ratio?

Determine the value of X in the following:

26. 3:2 = x:6
27. \[
\frac{x}{27} = \frac{3}{5}
\]

28. \[
\frac{5}{7} = \frac{25}{x}
\]

29. \[
\frac{6}{100} = \frac{x}{100}
\]

30. \[
\frac{12}{3.5} = \frac{10}{x}
\] (Round your answer to two decimal places)

31. Evaluate:
\[10x - 6y, \text{ if } x = 0.9 \text{ and } y = 2.5\]

Graph Interpretation:
A buoy is bouncing up and down on the waves. The following graph depicts its elevation over a certain period of time.

32. What is the buoy elevation at 3 seconds?

33. Referring to the graph above, what is the independent variable?
